

TVC LEISURE

Gaming and Amusement Machine Supplier

June 2019 Newsletter

Hello! Welcome to the June Newsletter,

The heatwave has arrived, which means it's a great time to make the most of your pub gardens.

June has been a busy month with a number of installs and machine upgrades taking place. We're also continuing to invest in all-new AWP's, pool tables and digital gaming machines.

As many of our customers know, our response times are the backbone of our service. Our preventative maintenance reduces the chances of a breakdown, but sometimes technical issues do crop up.

In the event of a technical issue, our engineers average a 1hr 20 minute response time! And we're always working to trim that response time further.

We understand that digital gaming machines, pool tables and ancillary machines contribute valuable revenue to our customers. That's why we commit so hard to keeping your equipment up and running.

And during summer, it's more important than ever. Evening and weekend footfall increases 38% during summer. Nationwide 33.8 million people will be visiting pubs just like yours, so make sure your machines are up to scratch.

If you need an extra ice machine to keep up with demand, you know who to call!

Adam Jenkins
Managing Director, TVC Leisure

Check out our ancillary machines:

- Ice machines
- Glass/dishwashers
- Bottle Coolers
- ...and more!
